Experience

Web developer Intern

Indelpro

April 2025 - October 2025

Altamira, Tamps

- Actively participated in developing and maintaining the company's internal portal front-end and back-end, using Angular as the main framework and typescript + express for the API.
 - Develop a module in the Portal API using TypeScript, TypeORM, and PostgreSQL to migrate data from existing MongoDB schemas into the PostgreSQL database.

Education

B.S Computer Systems Engineering

Instituto Tecnológico de Ciudad Madero (ITCM)

September 2020 - Present

Cd. Madero, Tamps

- **Relevant Courses:** Introduction and OOP with Java, Database Fundamentals, Data Structures, Android Studio with Java and Kotlin, Jetpack Compose, CRUD System Implementation, Algorithm Design, Artificial Intelligence.

Technical Degree in Programming

CBTis 103

August 2017 - August 2020

Cd. Madero, Tamps

- **Relevant Courses:** Introduction to PSeInt, C#, Web Development (HTML, CSS), and Android Studio with Java.

Projects

SolidKey | *TypeScript, Express, Angular, Git*

I developed a secure password management and generation application designed to simplify and enhance users' account protection. Key features include:

- **Custom Password Generation:** Implemented a password generator based on configurable options such as length and character types.
- **State Management with React Context API:** Ensured efficient data handling and a smooth user experience.
- **Token Decoding and Validation API:** Designed and developed endpoints to guarantee the integrity and security of stored passwords.

Skills

Languages: Java, Kotlin, TypeScript, JavaScript, HTML, CSS

Databases: PostgreSQL, MySQL

Frameworks and Libraries: Node.js, Express, Flask, React, Vue, Angular, Svelte, AstroJS

Tools and Systems: Git, Linux, Docker REST API.
